LIBRARIAN'S REPORT

The librarian of the Winchester Public Library herewith presents to the voters of the town of Winchester, her annual report.

During the past year 271 new books were added to our shelves by purchase or gift. The total circulation was 18,059: fiction 9,179, non-fiction 3,784, juvenile 2,824 and magazines 2,272.

We discarded a number of books because of their age or dilapidated condition and these were sold at very low prices which brought \$2.26 in to the treasury. There are now 7,500 books on the shelves.

During the school year the library has been opened Tuesdays from 12.15 to 12.45 to accommodate the pupils who go home on the busses. The librarian has donated her time for this extra service.

Respectfully submitted,
 LOUISE L. JOHNSON,
 Librarian.

The bedside nursing this winter has been much above average, this is probably due to the many cases of grippe. The summer months were also busy because of the large amount of maternity work.

The annual pre-school clinic was held on Aug. 29th. This is much later than usual, and this fact probably accounts for the small attendance. Twenty children were examined by Dr. Lourane Fox and Dr. Chester Goldsmith; ten children were given diphtheria toxoid. The results of the physical examinations were recorded and discussed with the respective parents. The clinic was sponsored by the State Board of Health and was conducted by Miss Hazel Waite, assisted by the local nursing association and representatives from the various clubs.

Last summer during the week of July 10th, I attended the summer session for public health nurses at Keene Teachers' college.

On October 20th, I attended the School Nurses division of the Teacher's Convention, held in Keene.

Miss Cecelia Walch, Red Cross field supervisor visited here on April 26th. Her successor, Miss Elizabeth Bonham visited here in November.

The representative from John Hancock Insurance company spent one day here last spring.

Miss Priscilla Stearns, R. N., of Winchester substituted here from July 16th to August 16th.

This year, a welfare committee has been organized, composed of representatives from the various clubs in town. They have done some excellent work, not only have they repaired old clothing, but they have made new clothing. These things have been distributed among the needy families, who have all been most appreciative.

A community fund has been raised, with contributions from individuals and organizations. These funds are used to buy cod liver oil for undernourished children, glasses, etc.

The Well-Baby Conferences which are held every Thursday are popular. The average attendance at this clinic is from six to eight babies.

Respectfully submitted,
BARBARA L. GILMAN,
District Nurse.

HEADMASTER'S REPORT

I hereby submit to the Superintendent of Schools the annual report for Thayer High School.

Junior and Senior High Enrollment:

Grades	Latin	Commerce	Dom.Arts	Agri	M. T.	Totals
12	4	16	7	7		34
11	7	18	5	5		35
10	3	25	5	8		41
9	16	28	2	5		51
8			16		9	25
7			16		21	37
	—	—	—	—	—	—
Totals,	30	87	51	25	30	223

The total enrollment in the senior high this present year is 161, junior high 62, making a total of 223.

There was but one change in the teaching staff and that came toward the end of the summer when Miss Barbara Treat asked for her release so that she might accept a position elsewhere at a very substantial increase in pay. To fill the vacancy Miss Molly Reed of Rockport, Massachusetts, was secured. Miss Reed is a graduate of the Salem Teachers' School. In November, Mrs. Gertrude Dubriski of this town was added to the teaching force as a part time teacher. She handles sections in three unit courses and one period of drill and remedial work. This addition was made necessary to provide for dividing some larger classes which ranged in number to 50 or more. This has proved a considerable help in relieving some badly overcrowded classrooms. However, lack of space and overcrowding con-

tinues, this is more pronounced now in the commercial department. Larger numbers taking commerce subjects have made the rooms for that work entirely inadequate.

During the past summer some reorganization was attempted in the prescribed courses of study offered. Details can not be given here but it can be said that the changes made were designed to make the courses better fit the needs of the students. No major changes were made except those based on successful experiences of other schools.

Special mention should be made of the work of the school band under the direction of Mr. Gribbon. Many new members are being added. A good sized orchestra has been organized this winter.

The Home Economics department provides an opportunity for the girls to have actual practice in preparing foods and serving meals. This work along with the care and cleaning of the laboratory approximates the work which would be done in a home of their own. They also repair and make garments for themselves or other members of their family, and learn to care for their clothes.

Members of the seventh grade prepared light refreshments which were served at the formal opening of the teachers' room. For a cost just under thirty dollars the room has been refurnished with a studio couch, a rug, an occasional chair, sash curtains and a picture. The walls and ceilings have been refinished, the desk, tables and mirror frame varnished to match the new furniture, and a straight chair was donated to complete the furnishings. This is a much needed improvement and gives us a more pleasant atmosphere in which to hold our weekly meetings. The couch also gives the junior and senior classes an opportunity to learn bed making without going to the district nursing association rooms.

The Vocational Agriculture Department started the 1939-40 school year with a total enrollment of twenty-six boys.

Supervised farming activities of the past summer included the construction of one small dairy barn to store feed for and house three cows and a sixteen by twenty foot laying house for poultry. Production projects of potatoes were particularly successful though small in size and few in number. Home gardens still constitute a major part of the supervised farming although more and more of them are being supplemented or displaced by calf, poultry, or pig projects which are owned by the boys and therefore more desirable.

About five thousand White Pine, Red Pine, and White Spruce seedlings raised by the state forest nursery were received in May and set out by the boys in their home wood lots or the town forest.

The Ganite State Association of Future Farmers was entertained by the Thayer Chapter in May and judging contests in dairy cattle and poultry were arranged with the kind cooperation of local farmers. One of the Thayer High judges tied for first place and later represented the state at the regional contest held at Eastern States Exposition in the fall.

One setting of eggs was hatched in the school incubator assisting several boys in starting up or renewing their small poultry flocks.

The first activity of the Future Farmer after the opening of school was the staging of the fourth annual F. F. A. Fair. This was an unusually successful undertaking this year. The fine cooperation of local industries with the boys and townspeople in preparing and entering exhibits was a real contribution to the success of this project. Two features that added greatly to the program and appearance of this fair were the horse pulling contest and the housing of the livestock and poultry exhibits in a large auction tent secured for the purpose.

The Thayer boys were unusually successful this year in the interscholastic judging contest held at Durham. The dairy cattle judging team placed first with individual ties for first

and second places. The fruit judges were also better than average, winning ties for individual second and third places but lacking in total scores to place among the top three in the team contest.

The arrangement of the Agricultural classroom is being revised by the replacement of the old individual tables with new tables constructed by the boys in shop and designed to seat four each.

Additions to the farm shop and crop equipment have made certain phases of the work this year of much more practical value.

Regular instruction in the various phases of practical farming has been carried on as usual with problems, class discussion, field trips, and supervised study, forming the basis of the work. The farm mechanics and shop work continues to suffer from lack of indoor housing space and the type of equipment required for major farm repair and construction jobs.

As a matter of record there follows a condensed program of the 1939 commencement and the list of graduates:

REPORT OF SCHOOL NURSE

For Year 1939

I hereby submit my second annual report on school nursing.

There were 182 visits made to the schools during the past year. These visits include assisting the school physician with examination of the pupils, classroom and individual inspection of the pupils, treatment of minor injuries, skin diseases, and health supervision.

The annual physical examination of the school children was conducted by Dr. Louvane Fox, assisted by the nurse. There were many children found to have defective vision. The majority of these have been taken to the Eye Clinic in Keene and have obtained glasses. Another outstanding defect found in the school children was underweight and under-nourishment. In an effort to correct this latter defect, it has been made possible through funds raised in the community for 72 children to receive cod liver oil at school.

In the Fall, several cases of impetigo, scabies, and pediculosis were found. These children were excluded from school, received treatment, and soon cleared up.

This winter 27 pupils have been excluded from school due to whooping cough. Last spring, three children were excluded from school because of chicken pox.

Clinics for the correction of defects:

(1) Dental clinic, Dr. Beland:

Number of pupils examined,	167
Number of defects found,	641

Number of operations:

Fillings,	101
Extractions,	16
Cleaning,	32

Number of pupils treated:

Center School,	22
Scotland School,	2
Ashuelot School,	13
Thayer High School,	7

(2) Tonsil and adenoid clinic, Dr. Eades,	
Community hospital,	20
(3) Tuberculosis clinic, Dr. Kerr, Com-	
munity hospital,	3
(4) Orthopedic clinic, Dr. Lee,	1
(5) Eye clinic, Dr. Pratt,	11
Dr. Eades,	13
Dr. Dexter,	2
Total number of pupils treated in school,	55
Total number of parent consultations,	60
Children taken to the doctor,	4

It is very encouraging and gratifying to work with the school children and the teachers because they are cooperative and very appreciative.

At this time, I wish to thank the Superintendent of Schools, the teachers, and the parents for their cooperation and assistance in promoting the health of the school children.

Respectfully submitted,

BARBARA L. GILMAN, R. N.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Winchester:

Teachers: Schools opened in September with only two changes in the teaching staff. During the summer, resignations were received from Miss Janet Fletcher, sixth grade teacher in the Center school, and from Miss Barbara Treat, commercial teacher in Thayer High school. Their places were filled by Miss Marion V. Fairbanks and Miss Molly L. Reed, respectively. Miss Fairbanks was transferred from the Intermediate grades at Ashuelot to the sixth grade.

The School Board authorized the Superintendent of Schools to secure part-time services of a teacher in order to alleviate the overcrowded conditions existing in the departments of English and Mathematics at Thayer High school during the remainder of the year. Mrs. Gertrude Dubriske of Winchester was appointed to this position.

It is a pleasure to report that several of the teachers attended summer school during the past summer.

Enrollment: The following table shows the actual membership in the Winchester schools as of December 31, 1939.

ENROLLMENT TABLE

		December 31, 1939													
School	Grades	1	2	3	4	5	6	7	8	9	10	11	12	Total	
Center		22	36	33	35	39	31							186	
Ashuelot		6	8	6	9	4	8	10	7					58	
Scotland		3	1	2	1	2	2							11	
Thayer High								37	25	51	39	35	34	221	
Totals,		31	45	41	45	35	41	47	32	51	39	35	34	476	

These figures show that the enrollment in the first grade was the smallest in at least twelve years. There are seventeen tuition pupils in the senior high school, five each in the Freshman, Sophomore, and Junior classes and two in the Senior class. These pupils come from Richmond, Swanzey, Fitzwilliam, and Warwick.

The enrollment in the Ashuelot school during the present year did not warrant a four-teacher staff, so, consequently, Miss Fairbanks was transferred to the sixth grade in the Center school in order to fill the vacancy created by the resignation of Miss Fletcher. This change necessitated the assignment of three grades instead of two as previously to each of two teachers but this assignment did not give more than twenty-one pupils to each teacher.

The Scotland school opened with an enrollment of thirteen children in the fall but two of them moved to Hinsdale leaving a membership of eleven at the present time. Unless the school population in this community increases in the near future, it would be a matter of financial economy to the district as well as to the instructional advantage of the children to transport them to the Center school.

The large enrollment in some sections in the high school seems to require, at least, the services of an additional teacher to make the instruction more effective.

Health: Health supervision plays a prominent part in any modern school system. This supervision in Winchester calls for a physical examination of every pupil early in the fall by the school physician and follow-up work by the nurse throughout the year. This year has been a hard one with many cases of colds and whooping cough. The cooperation of the school doctor, Dr. Louvane Fox, and the school nurse, Miss Barbara Gilman, has been very much appreciated by the School Board. A detailed report of her activities has been submitted by the nurse. This report should be carefully read by every citizen in order that the nature of her work may be realized.

A cooperative effort on the part of individuals and societies has made it possible to provide a number of underweight children with cod liver oil, as well as to furnish suitable clothing to many children who in some cases would not have been able to attend school.

SCHOOL BUILDINGS: In addition to the routine summer repair work, the following repairs have been made during the past year.

Thayer High School: New slate roof; a new steel ceiling in one of the upper rooms; a teachers' rest room renovated and equipped; floor of the large assembly hall sanded and varnished.

Center School: Boys' basement completely remodelled and cement front walk installed.

The school plants have been well looked out for by the janitors during the year, and the plan of the Board in having a certain amount of repair work completed each summer is an excellent one.

CONCLUSION: Appreciation should be given to the work of the school nurse, and of various societies and individuals who have contributed both in time and money in furthering the cause of education in Winchester.

Respectfully submitted,

CHARLES W. WALKER,

Superintendent of Schools.
